

2025 Annual Report

Reflecting on 2025: A Year of Transformation for MedSend

The start of a new year is a natural time for reflection. The pace slows just enough to allow space to look back and be grateful, and spend time in prayer and thoughtful planning for what lies ahead.

This past year has been pivotal in the life of our ministry. Because of the resources you provide, momentum continues to build. You are not only helping U.S. healthcare professionals reach the places they are called to serve, you are helping them remain there. Again and again, we hear stories of renewal and refreshment, and they are a deep encouragement to our team. I hope you've seen some of these stories through our emails, social media, website, and notes of thanks.

In 2026 we will surpass 150 National Scholarships supporting doctors in Africa and Asia as they pursue advanced training. We step into the year ahead with confidence and expectation, trusting the Lord to continue transforming lives and strengthening global healthcare missions through this work.

I have had the privilege of serving with MedSend for nearly eighteen years. The level of impact and innovation we are seeing today is unlike anything before. Even so, I truly believe our best days are still ahead. New programs are gaining traction, and their reach is just beginning to unfold.

Thank you for allowing the Lord to use MedSend, and your generosity, to bring compassionate care and the hope of His love to communities around the world.

Blessings in the new year to you and those you love,

Rick Allen

Your Giving and how it is making a global impact

As you read this report, my hope is that you are filled with joy and gratitude as you see how God has multiplied your generosity through MedSend and healthcare missions around the world. Scripture reminds us in 2 Corinthians 9:7 that God delights in our cheerful giving, and your generosity is a beautiful expression of that truth.

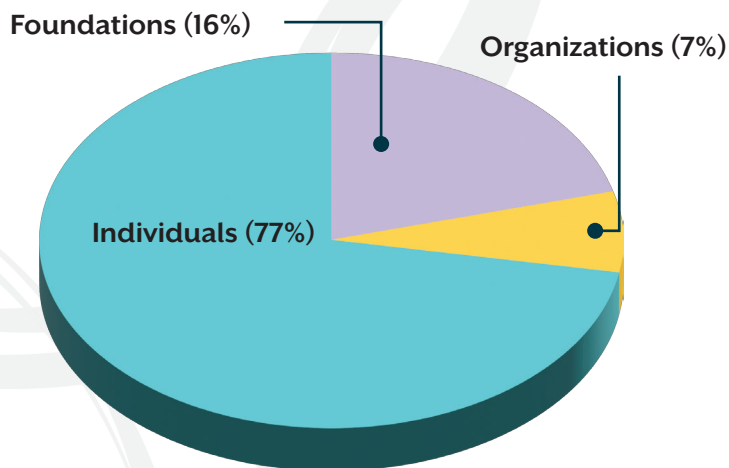

The mission of MedSend is only possible because of partners like you. Your unique contribution plays a vital role in bringing Christ's love to the nations. **This past year, your support helped more than 20,000 people choose to follow Christ** and made it possible for millions to receive compassionate care in the name of Christ.

Thank you for your faithful partnership and for advancing the gospel through healthcare missions.

Morgan Boardman,
Chief Development Officer

DONATIONS BY CATEGORY:

“We’re really, really grateful. I don’t know what our other path would look like, the one where we didn’t have all the resources and support you provide through The Longevity Project, but I’m fairly certain your name holds: when we might have burned out, we did not. When we were at the end of our resources, yours bridged the gap. Thank you.”

A Miracle in a Remote Village

In a remote village in Central Asia, a family faced what seemed like an impossible situation. Their young son was gravely ill with cancer, and after exhausting every medical and traditional healing option, they had been told by the hospital that nothing more could be done. They were preparing to say goodbye.

Our MedSend Grant Recipient* explains the parents had “tried everything they could think of and spent all their savings to treat their boy. They tried doctors, natural medicine, local traditional healers, local spiritual leaders, you name it.

But then something extraordinary happened.

Our Grant Recipient and their team were brought to the family as a last resort and suggested they try the power of prayer. They left the family

with a small speaker containing worship songs and biblical recordings. What followed was nothing short of miraculous. The boy began listening to the worship songs, then started memorizing Scripture. With each song and spoken word, he grew stronger.

Months later, to everyone’s astonishment, the boy was completely healed. The parents, who had been waiting for him to die, instead found themselves sending him back to school. More incredibly, they became eager to learn more about the “Word of God which is so powerful that it can raise the dead!” (Their own words!)

As our Grant Recipient beautifully reflected: “His word is alive, it is powerful, and against it nothing can stand.”

surrendered-heart-book](https://medsend.org/surrendered-heart-book)

**Order *Surrendered Heart*
on January 13**

<https://a.co/d/7OkSyek>

Surrendered Heart brings together true stories from healthcare missionaries who have faced painful challenges and found God's grace in the middle of them—stories you've helped make possible through your support of MedSend and The Longevity Project. They include:

- Marriages that survived intense pressure
- Families walking through crisis far from home
- Teams learning to stay united across cultures
- Servants who discovered God's nearness when obedience was costly

This book is an honest and hope-filled look at what it means to answer God's call without losing the relationships that matter most.
